Reception

Check in and check out by hotel Locanda Vivaldi.

From the airport

The Marco Polo International Airport is 10 km far from Venice.

The hotel can be easily reached both by a private water taxi, which will bring you in 30 minutes to the docking of the hotel, and using the motorboat shuttle service, which takes about an hour and ten minutes and stops at San Marco (about 100 metres from the hotel).

The journey across the lagoon of Venice is very pleasant and interesting from both naturalistic and historic points of view.

By Car

From the exit from the motorway A4, continue in the Venice direction.

Our clients can take advantage of a special price at the Tronchetto and San Marco garages.

Tronchetto (its name comes from a Venetian island of the same name) can be reached following the indications that can be found at the Liberty Bridge, a Bridge which unites Venice with the mainland. To reach us from there, you can take advantage of a water taxi (which will bring you in 20 minutes directly to our private docking), or by waterbus (you arrive in 40 minutes to the waterbus stop of San Zaccaria situated 100 meters from the hotel).

The San Marco garage is in Piazzale Roma, a car terminal in Venice. Piazzale Roma can be reached going straight until you reach the end of the Liberty bridge. From here, you can also reach the hotel both by a water taxi and using public transport services.

By Train

From Santa Lucia train station it is easy to reach the hotel by a private water taxi (you arrive directly to our private docking in 20 minutes) or using the public transport services (waterbuses) which reach in about 35 minutes the waterbus stop of San Zaccaria, which is only 100 metres from our hotel.
